The quarterly non-financial accounts of General Government from the first quarter of 2009 onwards have been compiled by ELSTAT based mainly on direct data sources. The data are compiled in full consistency with the European System of Accounts (ESA95). It should be noted that the methods used to compile data on a quarterly basis are consistent with the methods used to compile the annual data, which are published in the context of the Excessive Deficit Procedure Notifications, in April and in October of each year.
