

PRESS RELEASE

SURVEY ON ART GALLERIES, 2017

The Hellenic Statistical Authority (ELSTAT) announces, with this Press Release, the data of the Survey on Art Galleries, conducted for the year 2017.

The Survey on Art Galleries is an annual census survey and records individual and group exhibitions held in art galleries and other places of art and more specifically, data on the number of exhibitions (individual and group exhibitions) by type of work of art exposed (photography, sculpture, painting, etc.) and the number of artists.

The following tables and graphs present data that describe in detail the individual and group exhibitions that took place during the last years, by type of exhibition (Tables 1, 3, Graphs 1, 2, 3, 4). There are also tables with data for the last three years pertaining to the number of exhibitions and the corresponding number of works of art, as well as the number of artists of group exhibitions (Tables 2 and 4).

As regards individual exhibitions, it is observed that painting exhibitions account for the majority of the exhibitions, followed by photography exhibitions and combined exhibitions (Table 1, Graph 2).

The same trend is observed for group exhibitions, where painting exhibitions account for the majority of the exhibitions, followed by combined and photography exhibitions (Table 3, Graph 4).
