

PRESS RELEASE

TURNOVER INDEX IN INDUSTRY: January 2020, y-o-y increase of 5.7%

The Hellenic Statistical Authority announces the Turnover Index in Industry with base year 2015=100.0 for January 2020, on the basis of provisional data, which is as follows:

The Overall Turnover Index in Industry (both domestic and non-domestic market) in January 2020 recorded an increase of 5.7% compared with the corresponding index of January 2019. In January 2019, the corresponding annual change of the Overall Turnover Index in Industry decreased by 4.8% (Table 1).

The Overall Turnover Index in Industry in January 2020, compared with December 2019, recorded a decrease of 19.1% (Table 6).

The average Overall Turnover Index in Industry for the 12-month period from February 2019 to January 2020 increased by 0.4%, compared with the corresponding index of the 12-month period from February 2018 to January 2019. In January 2019, the corresponding annual rate of change of the Overall Turnover Index in Industry for the previous 12-month periods increased by 8.5% (Table 13).

Evolution of the Overall Turnover Index in Industry in January 2020

I. Annual changes of the Overall Turnover Index in Industry: January 2020/January 2019

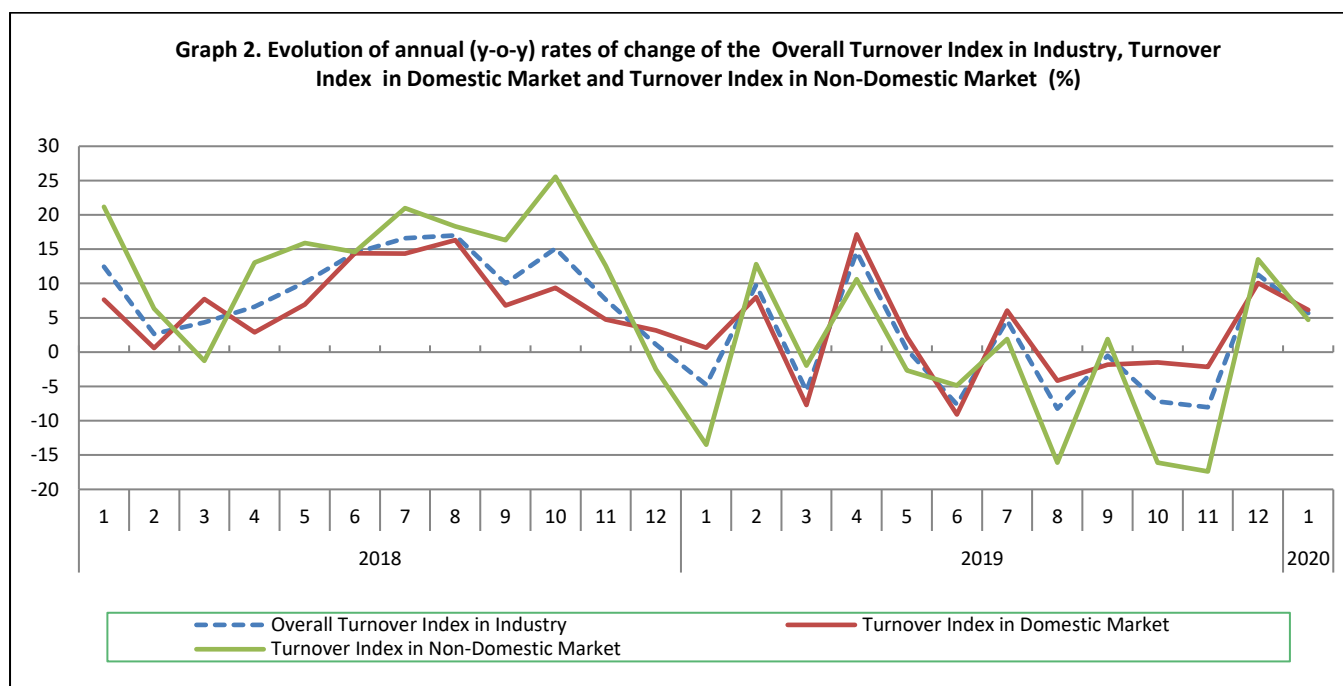

The 5.7% increase in the Overall Turnover Index in Industry in January 2020, compared with the corresponding index in January 2019, was due to the following:

1. Changes in the sub-indices of the industrial sections (Table 1):

- The Turnover Index in Mining and quarrying increased by 33.3%. The increase was mainly the result of the annual changes of the sub-indices in the following 2-digit divisions: mining of metal ores, other mining and quarrying products.
- The Turnover Index in Manufacturing increased by 5.5%. The increase was mainly the result of the annual change of the sub-index in the following 2-digit divisions: beverages, coke and refined petroleum products, other non-metallic mineral products, furniture.

2. Changes in the sub-indices in domestic and non-domestic markets:

- The Turnover Index in Industry in domestic market increased by 6.2% (Table 2).
- The Turnover Index in Industry in non-domestic market increased by 4.7% (Table 3).

II. Annual changes of the Turnover Index in Industry in Domestic Market: January 2020/January 2019

The 6.2% increase of the Turnover Index in Industry in domestic market in January 2020, compared with January 2019, is due to the following annual changes in the sub-indices of the following industrial sections (Table 2):

- The Turnover Index in Mining and quarrying increased by 10.7%. The increase was mainly the result of the annual changes of the sub-indices in the following 2-digit divisions: mining of metal ores, other mining and quarrying products.
- The Turnover Index in Manufacturing increased by 6.1%. The increase was mainly the result of the annual changes of the sub-index in the following 2-digit divisions: beverages, coke and refined petroleum products, other non-metallic mineral products, electrical equipment.

III. Annual changes of the Turnover Index in Industry in Non-Domestic Market: January 2020/January 2019

The 4.7% increase of the Turnover Index in Industry in Non-Domestic market in January 2020, compared with January 2019, was due to the following:

1. Changes in the sub-indices of the industrial sections (Table 3):

- The Turnover Index in Mining and quarrying increased by 64.6%. The increase was the result of the annual changes of the sub-indices in the following 2-digit divisions: mining of metal ores, other mining and quarrying products.
- The Turnover Index in Manufacturing increased by 4.2%. The increase was mainly the result of the annual changes of the sub-indices in the following 2-digit divisions: food, chemicals and chemical products, other non-metallic mineral products.

2. Changes in the sub-indices in Eurozone and Non-Eurozone countries:

- The Turnover Index in Industry in non-Eurozone countries increased by 9.7% (Table 5).
- The Turnover Index in Industry in Eurozone countries decreased by 2.1% (Table 4).

IV. Monthly changes of the Overall Turnover Index in Industry: January 2020/ December 2019

The 19.1% decrease of the Overall Turnover Index in Industry in January 2020, compared with the corresponding index in December 2019, was due to the following:

1. Changes in the sub-indices of industrial sections (Table 6):

- The Turnover Index in Mining and quarrying decreased by 46.9%.
- The Turnover Index in Manufacturing decreased by 18.7%.

2. Changes in the sub-indices in domestic and non-domestic market:

- The Turnover Index in Industry in domestic market decreased by 17.6% (Table 7).
- The Turnover Index in Industry in non-domestic market decreased by 21.7% (Table 8).

Note: The indices and the percentage changes are rounded up to two and one decimal digits, respectively, when published.

METHODOLOGICAL NOTES

Generally	The Industrial Turnover Index is an indicator of an enterprise's business cycle showing the monthly evolution of the market of goods and services in industry. The first compilation of the Turnover Index was completed by the Hellenic Statistical Authority in 2006, with base year 2000=100.0 and is compiled from 2000 onwards.
Purpose of the index	The purpose of this index is to measure the monthly activity of the industrial sector in terms of value. Turnover comprises the totals invoiced by the observation units during the reference period and corresponds to the market sales of goods or services supplied to third parties. The purposes and the characteristics of the Turnover Index apply, as well, to the indices for the distinction between domestic and non-domestic turnover.
Legal Framework	The compilation and publication of the Turnover Index is based on the framework of the implementation of Council Regulation (EC) No 1165/98 concerning short-term statistics (STS-R), as well as Regulation (EC) No 1158/05 of the European Parliament and of the Council amending Council Regulation (EC) No 1165/98. Furthermore, this index is governed by Regulation (EC) No 1893/2006 of the European Parliament and of the Council, by Commission Regulation (EC) No 656/2007 and by Regulation (EC) No 451/2008 of the Council.
Reference period	Month.
Base year	2015=100.0.
Revision	The latest revision of the Turnover Index in Industry (base year 2015=100.0) took place in the framework of Council Regulation (EC) No 1165/98 concerning short-term statistics. In accordance with this regulation the index is revised every five years, in years ending in 0 or 5.
Statistical classifications	At the level of classes of economic activities, the statistical classification of economic activities NACE Rev. 2 of EU was used (Regulation No 1893/2006), while at the level of main industrial groupings, the allocation of two-digit and three-digit NACE Rev. 2 headings to categories of aggregate classification was used, in accordance with Commission Regulation No 656/2007.
Geographical coverage	The index covers the whole Country.
Coverage of economic activities	The Turnover Index in Industry is compiled for all activities listed in Sections B (mining and quarrying) and C (manufacturing) of the NACE Rev. 2 statistical classification.
Computation of the Index	The Turnover Index in Industry is a fixed base index. This index is calculated at a first stage at the four-digit level of economic activity and subsequently, with the implementation of appropriate weighting coefficients, the index is calculated at higher levels (three-level and two-level of economic activity) as well as at the level of Main Industrial Groupings (MIGs).
Publication of data	The Turnover Index in Industry (2015=100.0) is released since August 2019 with June 2019 as first reference month. Data with base year 2015=100.0 are available from January 2000 onwards.
References	More information about the methodology concerning the compilation and calculation of the index and for the time series is available on the website of the Hellenic Statistical Authority (ELSTAT) (http://www.statistics.gr/en/statistics/-/publication/DKT24/).
