

HELLENIC REPUBLIC
HELLENIC STATISTICAL AUTHORITY

Piraeus, 12 March 2020

PRESS RELEASE

LABOUR FORCE SURVEY: 4th quarter 2019

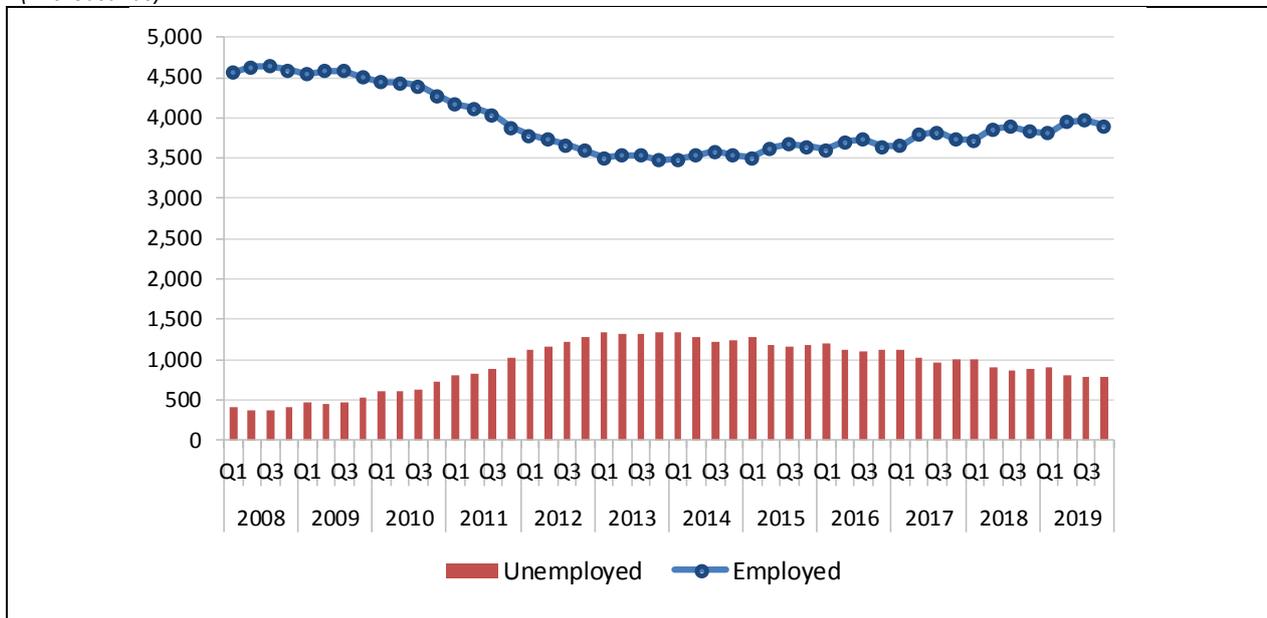

The Hellenic Statistical Authority (ELSTAT) announces the results of the Labour Force Survey for the 4th quarter of 2019.

More analytically, in 4th quarter 2019:

- The **number of employed** amounted to 3,901,791 persons while the **number of unemployed** amounted to 786,416 persons.
- The **unemployment rate** was 16.8%, compared to 16.4% in the previous quarter (3rd quarter 2019), and to 18.7% in the same quarter one year ago (3rd quarter 2018).
- The **number of employed** persons decreased by 1.8% compared with the previous quarter and increased by 1.8% compared with the same quarter one year ago.
- The **number of unemployed** persons increased by 1.2% compared with the previous quarter and decreased by 10.7% compared with the same quarter one year ago.

Graph 1. Number of employed and unemployed

(In thousands)

It should be noted that the quarterly estimates of the Survey are not subject to seasonal adjustment, while the monthly estimates are seasonally adjusted. Therefore, the average of the seasonally adjusted monthly estimates may differ from the estimate for the corresponding quarter.

I. EMPLOYMENT STATUS

Table 1. Employment status by sex, age, region, educational level and citizenship ⁽¹⁾, 4th quarter 2019

(In thousands)

		Employed	Unemployed	Inactive	Unemployment rate (%)	Labour force rate (%)
	Total⁽²⁾	3,901.8	786.4	4,401.7	16.8	51.6
SEX	Males	2,259.5	362.6	1,757.7	13.8	59.9
	Females	1,642.3	423.8	2,644.0	20.5	43.9
AGE	15 - 19	12.4	9.2	517.0	42.5	4.0
	20 - 24	140.6	69.8	289.7	33.2	42.1
	25 - 29	344.1	125.1	102.5	26.7	82.1
	30 - 44	1,567.3	308.4	265.8	16.4	87.6
	45 - 64	1,746.1	264.7	984.7	13.2	67.1
	65+	91.2	9.2	2,242.0	9.2	4.3
REGION (NUTS 2)	Anatoliki Makedonia Thraci (Eastern Macedonia and Thrace)	212.3	43.0	251.1	16.9	50.4
	Kentriki Makedonia (Central Macedonia)	637.4	153.6	799.1	19.4	49.7
	Dytiki Makedonia (Western Macedonia)	88.3	25.8	118.0	22.6	49.2
	Ipeiros (Epirus)	113.1	22.7	153.3	16.7	47.0
	Thessalia (Thessaly)	253.3	56.0	306.5	18.1	50.2
	Ionioi Nisoi (Ionian Islands)	71.9	9.9	88.7	12.1	48.0
	Dytiki Ellada (Western Greece)	214.7	65.0	287.0	23.2	49.4
	Sterea Ellada	193.5	43.0	233.9	18.2	50.3
	Attiki (Attica)	1,455.6	271.2	1,497.9	15.7	53.5
	Peloponnissos (Peloponnese)	214.9	27.2	222.7	11.2	52.1
	Voreio Aigaio (Northern Aegean)	73.6	15.0	77.3	16.9	53.4
	Notio Aigaio (Southern Aegean)	126.5	18.8	128.3	13.0	53.1
	Kriti (Crete)	246.8	35.2	237.9	12.5	54.2
EDUCATIONAL LEVEL	Less than primary	13.0	10.9	274.6	45.5	8.0
	Primary education	368.1	90.8	1,480.6	19.8	23.7
	Secondary education	1,706.4	380.1	1,965.2	18.2	51.5
	Post - secondary	401.2	107.0	156.8	21.1	76.4
	Tertiary Education	1413.1	197.6	524.5	12.3	75.4
CITIZENSHIP	Greek	3,668.0	702.8	4255.0	16.1	50.7
	Foreign	233.8	83.7	146.7	26.3	68.4

The highest unemployment rates are observed among women, persons aged 15 - 19 years, in Western Greece, and persons that completed less than primary education. The highest percentage of the labour force is observed among men, persons aged 30 - 44 years, in Crete, persons that completed post-secondary education and persons of foreign citizenship.

(1) The definitions of the characteristics that are presented in Table 1 and the other tables of the press release can be found in the **Explanatory notes**, at the end of the press release, under "Definitions".

(2) Any difference between the grand total and the sum of the detailed categories is due to rounding

II. CHARACTERISTICS OF EMPLOYED PERSONS

Table 2 presents the number of employed by professional status, occupation, full-time and part-time employment, permanent and temporary job for the 4th quarter of 2019. Furthermore, the table includes the corresponding data for the previous quarter and the same quarter one year ago, as well as the corresponding quarterly and annual rates of change.

Table 2. Employed persons by professional status, occupation, full-time and part-time job, permanent - temporary job

(In thousands)

	4th quarter 2019	Percentage over total	3rd quarter 2019	4th quarter 2018	Quarterly rate of change (%)	Annual rate of change (%)
Total	3,901.8		3,971.9	3,833.7	-1.8	1.8
Professional status						
Self-employed with employees	286.4	7.3	280.0	294.8	2.3	-2.8
Self-employed without employees	832.9	21.3	832.2	844.9	0.1	-1.4
Employees	2,660.7	68.2	2,740.5	2,560.5	-2.9	3.9

Occupation						
Legislators, senior officials and managers	114.1	2.9	110.7	112.5	3.0	1.4
Professionals	743.5	19.1	745.2	749.9	-0.2	-0.9
Technicians and associate professionals	315.2	8.1	310.3	301.4	1.6	4.6
Clerks	449.3	11.5	468.6	419.0	-4.1	7.2
Service workers and shop and market sale workers	928.5	23.8	951.8	887.1	-2.5	4.7
Skilled agricultural and fishery workers	402.1	10.3	403.1	429.8	-0.2	-6.4
Craft and related trade workers	359.1	9.2	359.4	358.4	-0.1	0.2
Plant and machine operators and assemblers	262.3	6.7	264.8	252.6	-0.9	3.9
Elementary occupations	270.2	6.9	298.0	257.9	-9.3	4.8
Other unclassified persons	57.5	1.5	60.0	65.2	-4.1	-11.7
Full-time, part-time job						
Full time	3,533.0	90.5	3,612.0	3,480.8	-2.2	1.5
Part time	368.7	9.5	359.9	352.9	2.5	4.5
Employees by permanent - temporary job						
Permanent	2,332.8	59.8	2,356.5	2,289.5	-1.0	1.9
Temporary	327.9	8.4	384.1	271.0	-14.6	21.0

In the 4th quarter of 2019, the majority of the employed are working as employees (68.2%), while a significant share is working as self-employed without employees (21.3%). In comparison with the previous quarter, there is a decrease for employees and an increase for self-employed staff and family workers while the reverse is the case for the previous year.

Part-time employment amounts to 9.5%, while the share of persons with temporary jobs is 8.4%. Part-time employment has increased in comparison with the previous quarter and the corresponding quarter last year. Temporary jobs have decreased compared to the previous quarter and increased compared to the corresponding quarter of the previous year.

The occupations gathering the biggest shares of the employed are service workers and shop and market sale workers (23.8%), and professionals (19.1%). In comparison with the previous quarter the largest decrease occurs for clerks and the largest increase in legislators, senior officials and managers. In comparison with the same quarter last year, the largest increase occurs for clerks and the largest decrease in skilled agricultural and fishery workers.

During the period 4th quarter 2008 – 4th quarter 2019, a significant increase in the share of low skilled non-manual occupations is observed⁽³⁾. During the same period, the share of skilled manual occupations has decreased, while the share of elementary occupations remained relatively stable as well as for highly skilled non manual, since 2011. Finally, the share of skilled workers in primary sector has been declining since 2014 (Graph 2).

Graph 2: Percentage of employed by broad categories of occupations

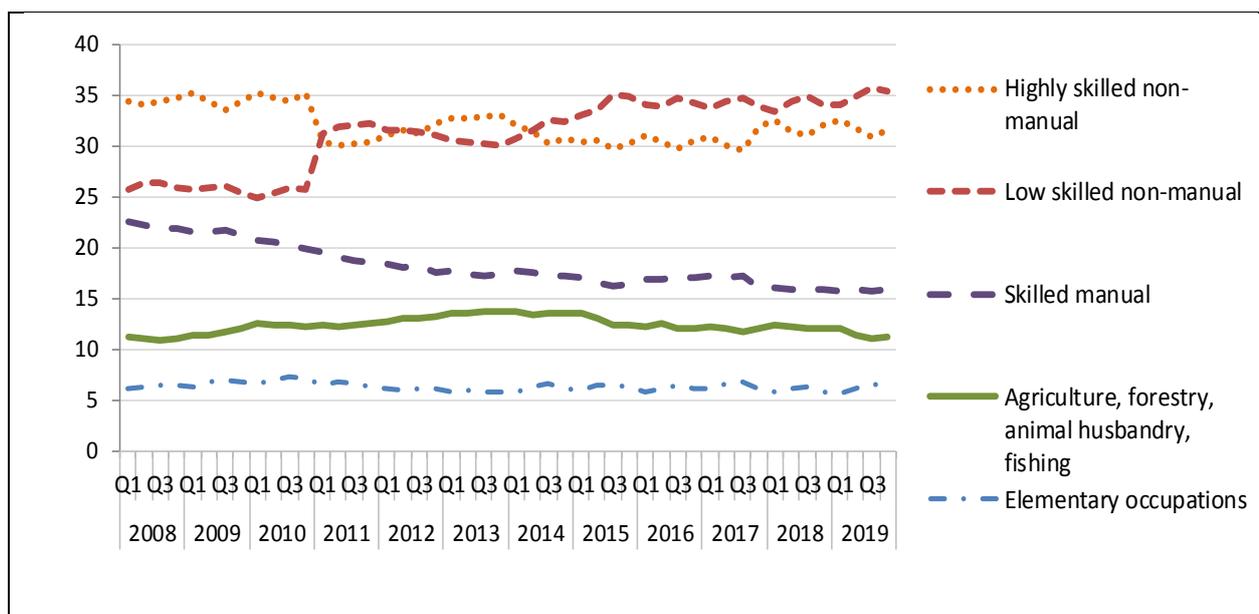

Table 3 presents the number of the employed by section of economic activity in the 4th quarter of 2019. Furthermore, the table includes the corresponding data for the previous quarter and the same quarter one year ago, as well as the corresponding quarterly and annual rates of change.

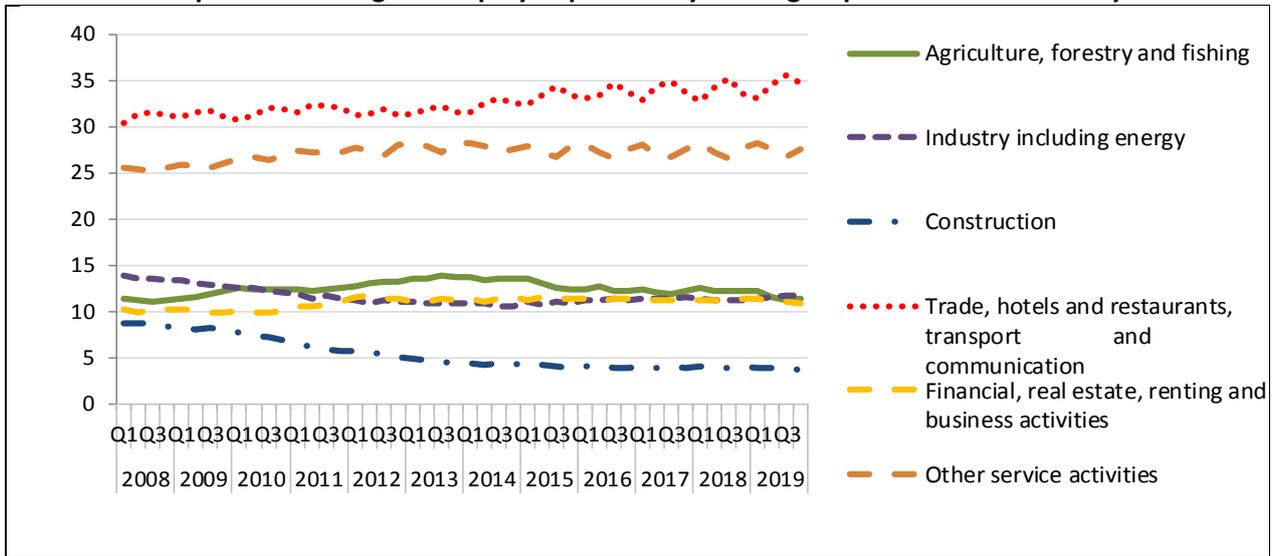

(3) It should be noted that in 2011 the new classification ISCO-08 was used for the classification of occupations, and as a result, there is a sudden increase of the “Highly skilled non-manual” occupations and a corresponding increase of “Low skilled non-manual”. Nevertheless, the increase in the percentage of “Low skilled non manual” occupations continues after 2011.

Table 3. Employed persons by section of economic activity*(In thousands)*

	4th quarter 2019	Percentage over total	3rd quarter 2019	4th quarter 2018	Quarterly rate of change (%)	Annual rate of change (%)
A. Agriculture, forestry and fishing	444.6	11.4	447.8	467.6	-0.7	-4.9

T. Activities of households as employers	23.9	0.6	24.3	27.6	-1.5	-13.4
U. Activities of extraterritorial organizations and bodies	5.1	0.1	5.2	2.4	-2.2	109.6

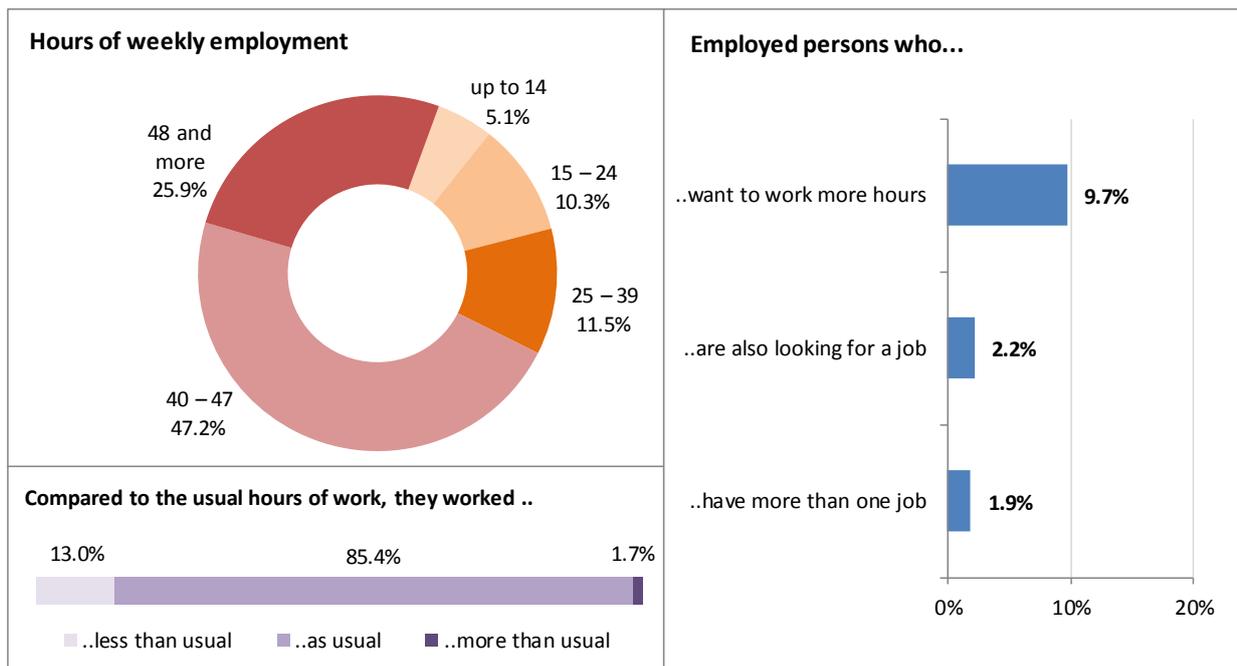

If we examine the changes in percentage distribution of the employed persons in broad groups of economic activity during the period 4th quarter 2008 – 4th quarter 2019, an increase is observed in the share of persons working in trade, hotels and restaurants, transport and communication, while a decrease is recorded in the share of persons working in construction and industry which, however, shows a stabilization trend over the past 3 years (Graph 3).

Graph 3: Percentage of employed persons by broad groups of economic activity

Most of the employed (47.2%) report having worked 40 - 47 hours in the reference week while a significant share (25.9%) reports having worked for 48 hours or over. The vast majority of the employed persons (85.4%) worked the usual hours during the reference week, while 9.7% of them state that they wish to work more hours. 1.9% reports having more than a job and 2.2% of the employed are looking for a job, even though they have one (Graph 4).

Graph 4: Hours worked, existence of a second job, wish to work more hours and search for a job, 4th quarter 2019

III. CHARACTERISTICS OF UNEMPLOYED PERSONS

Table 4 presents the number of unemployed by reason for leaving the last job, duration of unemployment, type of employment they are looking for and by registration in a public employment office (OAED, for Greece) for the 4th quarter 2019. Furthermore, the table includes the corresponding data, for the previous quarter and the same quarter one year ago, as well as quarterly and annual rates of change.

Registration at a public employment office (OAED)						
Registered at a public employment office and receives benefit or assistance	110.4	14.0	89.3	115.5	23.7	-4.4
Registered at a public employment office but does not receive benefit or assistance	511.0	65.0	519.7	575.3	-1.7	-11.2
Not registered at a public employment office	164.1	20.9	166.7	189.6	-1.6	-13.4
Did not answer	0.9	0.1	1.4	0.8	-38.5	10.4

(4) Persons who worked for the last time more than 8 years ago are not asked why they stopped working.

Most unemployed persons report as main reason for stopping their last job that it was a job of limited duration (29.3%) or they were dismissed (22.9%). The largest share of the unemployed was working in hotels and restaurants (19.7%). As regards the occupation of their previous employment, the largest part (30.3%) was working as service and sales workers (Graph 5). The share of the unemployed that have not worked in the past amounts to 20.1%.

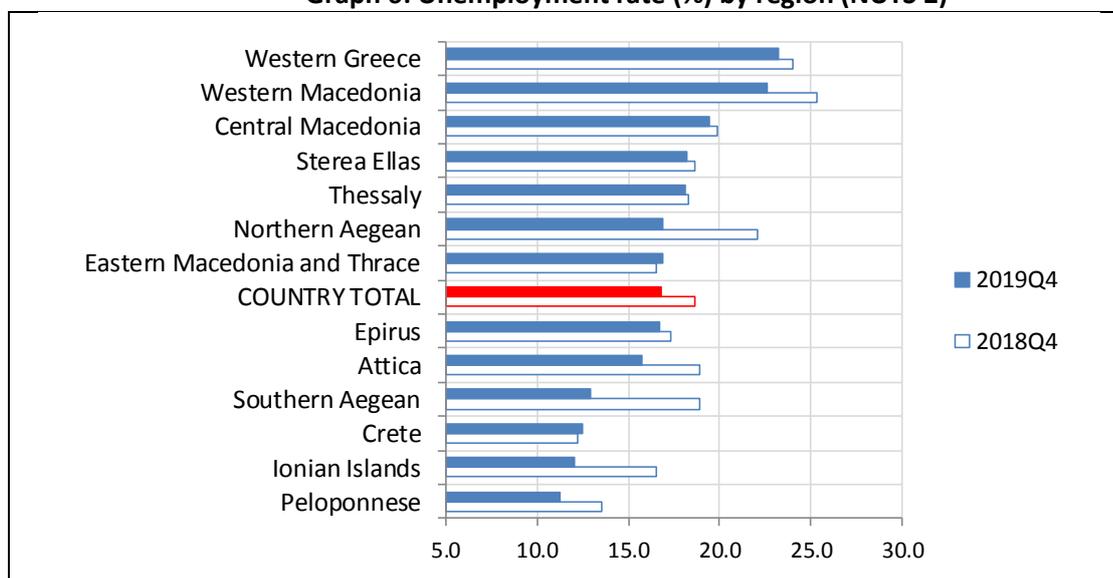

The majority of the unemployed (72.1%) are seeking for a job for one year or more (long-term unemployed). 23.0% of the unemployed is looking only for full-time employment as employee while 68.1% is looking for full-time employment but would accept part-time job, if not available. 20.9% of the unemployed report that they are not registered at public employment office (OAED), while 14.0% report that they receive a benefit or assistance from public employment office.

Graph 5: Sector of economy and occupation of the last job of unemployed, 4th quarter 2019.

Western Greece (Dytiki Ellada), Western Macedonia (Dytiki Makedonia) and Central Macedonia (Kentriki Makedonia) have the highest unemployment rates, that is 23.2%, 22.6% and 19.4%, respectively (Graph 6).

Graph 6: Unemployment rate (%) by region (NUTS 2)

IV. CHARACTERISTICS OF INACTIVE PERSONS

Table 5 presents the number of the inactive, aged less than 75, by existence of previous work experience, reason for leaving the last job and reason for not seeking employment for the 4th quarter 2019. Furthermore, the table includes the corresponding data for the previous quarter and the same quarter one year ago, as well as the corresponding quarterly and annual rates of change.

Table 5. Inactive, aged less than 75 years, by existence of previous work experience, reason for leaving the last job and reason for not seeking employment

(In thousands)

	4th quarter 2019	Percentage over total	3rd quarter 2019	4th quarter 2018	Quarterly rate of change (%)	Annual rate of change (%)
Total	3,232.2		3,183.5	3,249.1	1.5	-0.5

For other personal or family reasons	266.0	8.2	269.3	281.3	-1.2	-5.4
Due to education or training	793.4	24.5	762.7	787.6	4.0	0.7
Is in retirement	1,176.3	36.4	1,176.3	1,205.2	0.0	-2.4
Own illness or disability	158.2	4.9	166.8	164.7	-5.2	-4.0
Believes that no work is available	41.5	1.3	42.8	50.3	-3.1	-17.5
Other reason	577.2	17.9	583.4	562.1	-1.1	2.7
Did not report a reason	60.9	1.9	59.6	44.7	2.1	36.3

The majority of inactive persons, 15 - 74 years old have not worked in the past (46.4%) or they worked for the last time 8 years ago and more (28.3%).

Among the persons that worked for the last time during the previous 8 years, the majority stopped working due to retirement (58.3%) or because it was a job of limited duration that ended (13.9%).

The main reason reported by inactive for not seeking employment is that they are in retirement (36.4%) or in education or training (24.5%). 1.8% of the inactive is seeking for a job but is not currently available to start working. 1.3% of the inactive is not seeking a job because they believe that no work is available.

(5) Persons who worked for the last time more than 8 years ago, are not asked why they stopped working.

EXPLANATORY NOTES

Labour Force Survey The Labour Force Survey produces estimates since 1981 (second Quarter of the year). From 1998 onwards it is a continuous quarterly survey. The main statistical objective of the Labour Force Survey is to divide the population of working age (15 years and over) into three mutually exclusive and exhaustive groups - persons in employment, unemployed persons and inactive persons. In addition, the Labour Force Survey collects information on demographic characteristics, main job characteristics, the existence and characteristics of a second job, educational attainment, participation in education, previous working experience and search of a job.

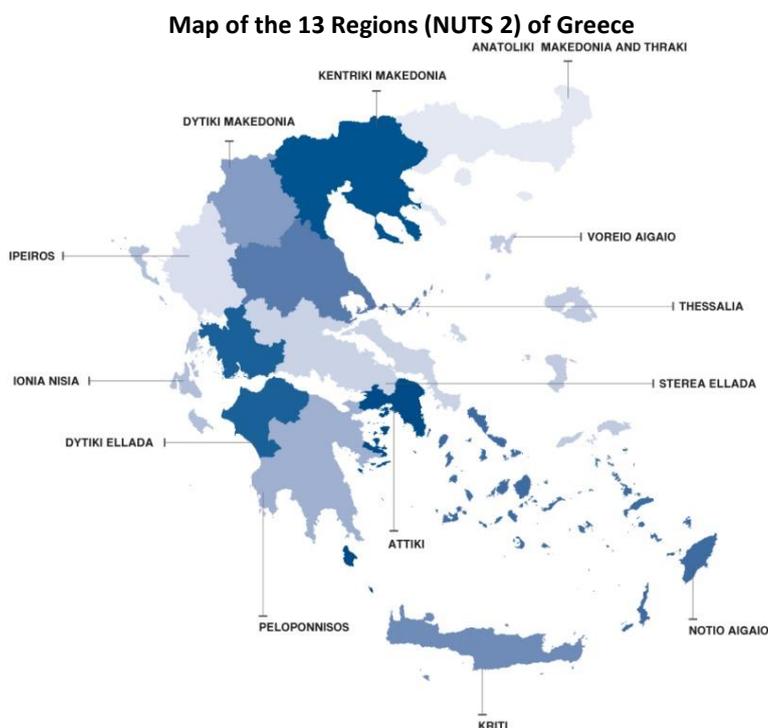

Legislation The current survey is completely harmonized with European legislation. The principal legal act is Council Regulation (EC) No. 577/98 that stipulates the provisions on design, survey characteristics and decision-making processes. The survey framework was amended by successive Commission Regulations (Regulation (EC) No 1372/2007, Regulation (EC) No 2257/2003, Regulation (EC) No 1991/2002).

Reference Period The sample of the Labour Force Survey is equally allocated to the 4 (or 5) weeks of the month. Every selected household is assigned to a specific week, the reference week, running from Monday to Sunday.

- for employment, the reference period is the reference week,
- for employment seeking, the reference period is the reference week and the previous 3 weeks.

Coverage The survey covers all members of the private households, who are residing at least one year in Greece and excludes the members of collective households (i.e. hospitals, hotels, military camps, asylums, homes for the elderly, orphanages, etc).

Geographical classification The geographical classification is based on Nomenclature of Territorial Units for Statistics.

Methodology The estimates of the Labour Force Survey are produced by a suitable unbiased estimator, which takes in to account: a) the probability of selection of every sampled household, b) the response rate in every primary sampling unit, c) the allocation of population by NUTS 2 Regions, gender and age group.

Definitions **Employed:** persons aged 15 years or older, who during the reference week worked even for just one hour for pay or profit or they were working in the family business, or they were not at work but had a job or business from which they were temporarily absent.

Unemployed: persons aged 15 - 74, who were without work during the reference week (they were not classified as employed), were currently available for work and were either actively seeking work in the past four weeks or had already found a job to start within the next three months.

Inactive: persons who are neither classified as employed nor as unemployed.

Economically active population (labour force): persons either employed or unemployed.

Unemployment Rate: the ratio of unemployed divided by total labour force.

Regions: the 13 NUTS 2 areas in which Greece is divided.

Educational level: the highest completed level of education provided in 4 categories. The category "Less than primary" includes persons that never went to school. The category "Primary education" includes persons that completed primary school", and the category "Secondary education" includes persons that completed at most "Lyceum"- Upper Secondary Education. The category "Tertiary education" includes also persons that completed master or PHD.

Self-employed with employees: persons that who work in their own business, professional practice or farm for the purpose of earning a profit, and who employ at least one other person.

Self-employed without employees: persons that who work in their own business, professional practice or farm for the purpose of earning a profit, and who do not employ any other person.

Employees: persons who work for a public or private employer and who receive compensation in the form of wages, salaries, fees, gratuities, payment by results or payment in kind.

Family workers: persons who help another member of the family to run an agricultural holding or other business, provided they are not considered as employees.

Part-time job: a workers job where the normal hours of work are less than those of comparable full-time workers. The distinction between full-time and part-time job is based on the spontaneous answer given by the respondent.

Temporary work: work of **employees**, which will terminate either after a period fixed in advance, or after a period not known in advance, but nevertheless defined by objective criteria, such as the completion of an assignment or the period of absence of an employee temporarily replaced.

Duration of unemployment: the time that the respondent is looking for work and, **simultaneously**, had no job.

Sector of economic activity: the classification of economic activities is based on the products that a business produces or the services that provides. Since 2008, a classification equivalent to NACE Rev. 2⁽⁶⁾ is used. Labour Force Survey collects information at 3-digit level for the main job and at 2-digit level for the second and the previous job.

- in Table 3, the NACE Rev.2 classification is used at 1-digit level,
- in Graphs 3 and 5, for the classification of economic activity, the following typologies are used:

Typology of economic sector categories – correspondence with 2-digit NACE Rev. 2 codes		
Typology used in Graph 3	Agriculture, forestry and fishing	01 - 03
	Industry including energy	05 - 39
	Construction	41 - 43
	Trade, hotels and restaurants, transport and communication	45 - 61
	Financial, real estate, renting and business activities	62 - 82
	Other service activities	84 - 99
Typology used in Graph 5	Agriculture, forestry and fishing	01 - 03
	Industry including energy	05 - 39
	Construction	41 - 43
	Trade	45 - 47
	Transport and communication	49 - 53, 58 - 61
	Hotels and restaurants	55 - 56
	Financial, real estate, renting and business activities	62 - 82
	Public administration	84
	Education	85
	Health	86
	Other service activities	87 - 99

Occupation: is a set of jobs consisting of similar tasks and duties. Since 2011 the International Standard Classification of Occupations (ISCO-08⁽⁷⁾) of ILO is used. The Labour Force Survey collects information at 3-digit level for the main, the second and the previous job.

- in Table 2 and in Graph 5, the ISCO-08 classification is used at 1-digit level,
- in Graph 2, for the classification of occupation, the following typology is used:

Typology of occupation categories – correspondence with ISCO-08 codes	
Highly skilled non-manual <i>(Legislators, senior officials and managers, Professionals, Technicians and associate professionals)</i>	0,1,2,3
Low skilled non-manual <i>(Clerks, Service workers and shop and market sale workers)</i>	4,5
Skilled manual <i>(Craft and related trade workers, Plant and machine operators and assemblers)</i>	0,7,8
Occupations in agriculture, forestry and fishing <i>(skilled and non-skilled)</i>	6 and 92
Elementary occupations <i>(non-skilled workers, except those working in primary sector)</i>	9 except 92

Analytical description of the methodology and definitions used in the Labour Force Survey can be found on the website of ELSTAT at the link:
