

PRESS RELEASE

ROAD TRAFFIC ACCIDENTS: April 2022

The Hellenic Statistical Authority (ELSTAT) announces provisional¹ data from the survey on “Road Traffic Accidents” for April 2022. In particular, the road traffic accidents which occurred in Greece, resulting in death or injury, increased by 37.0% in comparison with the corresponding month of 2021 (1,014 road accidents in April 2022, against 740 road accidents in April 2021).

The casualties of the injury-causing accidents that occurred in April 2022 were as follows: 57 deaths, 52 serious injuries and 1.111 slight injuries. In contrast, in April 2021 the corresponding figures were: 36 deaths, 35 serious injuries and 790 slight injuries. Therefore, road traffic accident casualties in April 2022 increased by 58.3% for deaths, by 48.6% for serious injuries and by 40.6% for slight injuries.

EXPLANATORY NOTES

Survey on Road Traffic Accidents The Survey on Road Traffic Accidents is conducted on a monthly basis and it records, for each region (see map) and department of Greece and for each month separately, the number of accidents resulting in death or injury, as well as the number of persons injured by categories (drivers, passengers, pedestrians).

On a yearly basis, road traffic accidents are further analyzed. The competent agencies for filling in/collecting the forms on road accidents are the local Police Authorities and the local Port Authorities of Greece.

The lower level of analysis for the place where an injury road accident occurred is the settlement. Data are collected on a monthly basis. The main variables are the following: place of accident, kind of road, casualties, conditions of road surface and type of road.

Legal basis The Survey on Road Traffic Accidents is governed by Council Decision 93/704 of the European Community.

Reference period Monthly.

Availability of data Provisional data are available 2 months after the reference month.
Final data are available 10 months after the reference year.

Definitions **Road accident** (injury accident): Any accident involving at least one road motor vehicle in motion on a public road or square to which the public has access (excluding yards, industrial sites or vehicle depot of public transport enterprises), resulting in at least one injured or killed person. Accidents with only material damages are not included.

Fatality (Death): Any person killed immediately or dying within 30 days as a result of an injury accident (This national definition applies since 01.01.1996)

Person injured: Any person who sustained an injury as result of an injury accident, and who normally needs medical treatment.

Serious injury: Any person who sustained an injury as result of an injury accident, such as brain damages, mutilation, multiple injuries, which may result in lack of awareness or which are life-threatening.

Slight injury: Any person injured who sustained minor and not life-threatening injuries.

Vehicle: Include motor vehicles, trolleybuses, motorcycles, bicycles, motorbikes, agricultural and road making machines, animal and hand-drawn vehicles. Railway vehicles are excluded, unless the road accident involves at least one of the aforementioned types of vehicles and therefore, railway vehicles are considered vehicles.

Methodology The forms of the survey are filled in by the local Police Authorities and the local Port Authorities as well.
