

## **PRESS RELEASE**

# ARRIVALS AND NIGHTS SPENT IN HOTELS, SIMILAR ESTABLISHMENTS AND TOURIST CAMPSITES: 2020 (final data)

According to the results of the survey on arrivals and nights spent in hotels, similar establishments and tourist campsites, conducted by the Hellenic Statistical Authority (ELSTAT), for the total of these establishments, in 2020 compared with 2019, a decrease is recorded both in arrivals, by 69.4%, (Tables 1 and 4) and in nights spent, by 71.9% (Tables 2 and 5).

More specifically, in 2020 compared with 2019, a decrease of 76.6% and 76.4% is recorded in arrivals and nights spent, respectively, by non-residents, while arrivals and nights spent by residents recorded a decrease of 50.4% and 48.4%, respectively (Tables 1, 2, 7 and 8, Graph 1).

The annual occupancy rate of the bed places in hotels and similar establishments (excluding tourist campsites) amounted to 29.6% in 2020, compared with 48.7% in 2019 (Tables 3 and 6).

According to the monthly distribution of the data, 71.8% of the arrivals and 83.2% of the nights spent, in hotels, similar establishments and tourist campsites of Greece, are recorded during the period from July to October (Tables 1 and 2, Graph 2).

As regards the breakdown of the survey data by NUTS 2 Region, a significant decrease of arrivals is observed in arrivals and nights spent, in absolute values, in Notio Aigaio (72.0% in arrivals and 73.1% in nights spent), Kriti (71.9% in arrivals and 74.7% in nights spent), Attiki (72.6% in arrivals and 71.1% in nights spent) and Kentriki Makedonia (67.8% in arrivals and 72.9% in nights spent) (Tables 4 and 5).

In 2020, the largest share of arrivals and nights spent in hotels, similar establishments and tourist campsites, is recorded by non-residents, i.e. 55.7% of arrivals and 70.7% of nights spent (Graph 3).

In 2020, the biggest share of arrivals and nights spent by non-residents in hotels, similar establishments and tourist campsites is recorded by customers (guests) whose country of residence is in Europe (91.7% of arrivals and 95.0% of nights spent) with a significant contribution from the EU Members States (68.5% of arrivals and 71.4% of nights spent). The largest contribution concerning arrivals is recorded for Germany (24.5% of arrivals and 30.6% of nights spent) and for France (11.8% of arrivals and 8.6% of nights spent). As regards the rest of the European countries, the largest contribution is recorded for the United Kingdom (17.0% of arrivals and 18.7% of nights spent) (Tables 7 and 8).

When comparing the data of arrivals and nights spent in hotels, similar establishments and tourist campsites by country of residence of the year 2020 with the corresponding data of the year 2019, a significant decrease of arrivals, in absolute values, is recorded, among EU Members States, for Germany (58.6% in arrivals and 60.0% in nights spent), France (64.3% in arrivals and 68.6% in nights spent) and Italy (83.4% in arrivals and 84.8% in nights spent). As regards the other European countries a significant decrease of arrivals, in absolute values, is recorded for the United Kingdom (71.1% in arrivals and 74.0% in nights spent) and Russia (96.4% in arrivals and 97.9% in nights spent). From the rest of the continents, a significant decrease in arrivals, in absolute values, is recorded from America, and, in particular, for the United States of America (93.2% in arrivals and 91.9% in nights spent) (Tables 7 and 8).

<sup>(1)</sup> For reasons of statistical confidentiality regarding the protection of the identity of the surveyed units, data on tourist campsites are not broken down by residents and non-residents for the reference months March and December 2020.

<sup>(2)</sup> During the reference months April and May 2020 no arrivals and nights spent were recorded for tourist campsites, as they are defined in Regulation (EE) 692/2011 governing the survey.

## **EXPLANATORY NOTES**

Arrivals and nights spent at hotels, similar establishments and

Data on arrivals and nights spent at hotels, similar establishments and tourist campsites are collected from a monthly census survey. Each establishment fills in a questionnaire, for every month that it is in operation. It is mandatory for all hotels, similar establishments and tourist campsites to participate in the survey.

establishments and tourist campsites Legal frame

The survey is conducted pursuant to Regulation (EE) 692/2011 of the European Parliament and of the Council.

Reference unit

Data refer to all establishments (hotels, similar establishments and tourist campsites) that are registered in the Hellenic Chamber of Hotels.

Reference period

January - December 2020 (Final data).

Coverage

The survey results refer to 100% of the total of the available bed-places.

Geographical classification

The geographical classification is based on Nomenclature of Territorial Units for Statistics.

# ANATOLIKI MAKEDONIA DYTIKI MAKEDONIA I THESSALIA IONIA NISIA DYTIKI ELLADA PELOPONNISOS NOTIO AIGAIO

## Map of the 13 Regions (NUTS 2) of Greece

## **Definitions**

<u>Resident</u>: Every person, regardless of citizenship, that has resided in Greece for at least a year, or has arrived in Greece with the intention to reside in the country for at least 1 year.

Non-resident: Every person, regardless of citizenship, that is not considered to be resident.

<u>Arrivals</u>: The arrivals at the establishments are calculated for every person separately. The data refer to the total number of persons and not to the total number of rooms that were occupied. Only the persons that had at least one overnight stay at the establishment are counted.

<u>Nights spent</u>: The nights spent are calculated for every person separately. The data refer to the total number of nights spent by every person and not to the total number of nights spent in every room.

Occupancy of bed-places: The monthly occupancy of bed-places is calculated on the basis of the number of the bed-places, as reported by each establishment. The rate refers to the occupancy that was accomplished, as compared with the maximum occupancy that is expected according to the available bed-places. The occupancy of the period is the result of the average occupancy rates of every month of the period, weighted by the bed-places that were in operation for each month.

## Methodology

This is a census survey and is conducted on a monthly basis. The data are compiled through the collection and processing of the relevant data submitted, via a specific questionnaire, by hotels, similar establishments and tourist campsites for each month of operation. The questionnaires are mostly submitted electronically, via ELSTAT's electronic application "Xenios Zeus" or, alternatively, for establishments that this is not possible, in paper form.

The survey is based on the Statistical Register of hotels, similar establishments and tourist campsites, which is updated during the year, so that data refer to the actual number of accommodation establishments and campsites that are in operation.

Non-response to the survey is addressed as follows:

1. Regular reminders are sent out to the establishments that have not responded to the survey, for submitting data.

2. For the low percentage of establishments, which despite the reminders have not responded to the survey, supplementary administrative data are used, and statistical methods are applied for grossing-up of the results to the total of establishments.

Data collection during the pandemic period of coronavirus disease 2019 (COVID- For the period of 15 March to 15 June 2020 the operation of tourist accommodation establishments that operate on a seasonal basis was suspended in the framework of the containment measures against the Covid-19 pandemic, whereas the operation of tourist accommodation establishments that operate on a continuous basis was suspended for the period from 23 March to 31 May 2020.

It is noted that during this period only a few establishments were in operation for special purposes such as the accommodation of people in quarantine, public servants that were transferred for special reasons, etc. In such cases arrivals and nights spent were not recorded, as they are not in the scope of the survey (Regulation EU 692/2011).

For the compilation of the 2020 final data of arrivals and nights spent in hotels, similar establishments and tourist campsites, both data collected by the survey and administrative data sources were used. Specifically, a. the establishments of the Register of hotels and tourist campsites, were identified on the basis of administrative data for each reference period.

- b. the survey was conducted on the afore-mentioned establishments
- c. for the low percentage of accommodation establishments that were in operation but did not respond to the survey, statistical methods were used for addressing non-response by grossing-up the collected data to the 100% of the total of the available bed-places.
