METHODOLOGICAL NOTES

Production and Sales of Manufactured Products	<p>The survey of Production and Sales of Manufactured Products (PRODCOM) is an annual survey, which is carried out since 1993, pursuant to Council Regulation (EEC) No 3924/91, of 19 December 1991, on the establishment of a Community survey on industrial production.</p> <p>The title comes from the French “PRODUCTION COMMUNAUTAIRE” (Community Production). The main purpose of PRODCOM statistics is the collection and dissemination of statistics on the production of industrial products, which takes place in Greece, as well as on the sold production that may take place out of Greece.</p> <p>The statistical outputs for each industrial product are:</p> <ul style="list-style-type: none">- the physical volume of total production manufactured (in units of measurement as defined in the PRODCOM list) for the reference year.- the physical volume of products sold (in units of measurement as defined in the PRODCOM list) for the reference year, regardless the time of production.- the value of products sold (in euro) for the reference year, in current values. <p>Within the PRODCOM framework the following are also recorded:</p> <ul style="list-style-type: none">- subcontracting, per PRODCOM heading (only quantity of production and contractor’s payment),- industrial services (treatment, repairs and maintenance and assembly work).
Legal Framework	<ul style="list-style-type: none">- Regulation (EU) No 2019/2152, of European Parliament and of the Council, on European business statistics.- Commission Implementing Regulation (EU) No 2020/1197 laying down technical specifications and arrangements pursuant to Regulation (EU) No 2019/2152.
Reference period	Calendar year.
Reference area	Total of Greece.
Survey methodology	<p><u>Coverage of economic activities</u></p> <p>The survey covers the divisions of the Statistical Classification of Economic Activities of the European Community (NACE Rev. 2) under sections B (Mining and Quarrying) and C (Manufacturing) and more specifically, Divisions 07-33.</p> <ul style="list-style-type: none">07: Mining of metal ores08: Other mining and quarrying10: Manufacture of food products11: Manufacture of beverages12: Manufacture of tobacco products13: Manufacture of textiles14: Manufacture of wearing apparel15: Manufacture of leather and related products16: Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials17: Manufacture of paper and paper products18: Printing and reproduction of recorded media19: Manufacture of coke and refined petroleum products20: Manufacture of chemicals and chemical products21: Manufacture of basic pharmaceutical products and pharmaceutical preparations22: Manufacture of rubber and plastic products23: Manufacture of other non-metallic mineral products24: Manufacture of basic metals25: Manufacture of fabricated metal products, except machinery and equipment26: Manufacture of computer, electronic and optical products27: Manufacture of electrical equipment28: Manufacture of machinery and equipment n.e.c.29: Manufacture of motor vehicles, trailers and semi-trailers30: Manufacture of other transport equipment31: Manufacture of furniture32: Other manufacturing33: Repair and installation of machinery and equipment

Target population

The surveyed population includes all the active enterprises in the above-mentioned divisions with an average annual employment of 10 persons and more. However, in some cases, depending on the representativeness of the product and of the turnover, enterprises that employ less than 10 persons are surveyed as well.

The frame used for determining the surveyed units is based on the Statistical Business Register of ELSTAT.

PRODCOM list

The products classification of the 2021 PRODCOM survey was based on the PRODCOM list for 2020 ([Commission Regulation No 2019/1933, of 6 November 2019](#)).

The 8-digit PRODCOM headings correspond to the [European Classification of Economic Activities](#) (NACE Rev. 2), at 4-digit level and to the [European Classification of Products by Activity \(CPA\)](#) at 6-digit level.

Data comparison

- The percentage contribution per division to the total value of sales of manufactured products is calculated for the total number of surveyed enterprises.
- The annual changes of the total value of sales of products are calculated from the two years' common enterprises.
